## SUMMARY

I am a skilled PHP Laravel developer with over 1 years of experience building scalable web applications. My expertise includes PHP, Laravel, MySQL, Javascript, HTML, and CSS. Throughout my career, I have successfully delivered complex projects on time and within budget. I have extensive experience in developing APIs, building responsive web applications, and integrating third-party services. What I love most about developing is the opportunity to create innovative solutions that solve real-world problems. I am passionate about learning new technologies and staying up-to-date with the latest industry trends. Outside of work, I enjoy attending technology meetups, learning about new frameworks, and working on personal coding projects. Let's connect and discuss how I can help bring your next project to life!
