Projects

Faculty Evaluation System

- Development/Deployment and Configuration of Web based Faculty Evaluation System for University of Peshawar using PHP/HTML/MySQL/JavaScript/Bootstrap technologies.
- There are at least 12,000 students studying in University of Peshawar and at the end of each semester students would evaluate each teacher on an evaluation form which would then be sent to Quality Enhancement Cell who would manually enter each form in an excel sheet which was quite tedious and time consuming. It would take them months to manually enter all the forms as there was no automated system to handle such data.

College Admission System

- Development/Deployment and Operations of College Admission System for University of Peshawar by using PHP/HTML/MySQL/JavaScript/Bootstrap technologies.
- Colleges affiliated with in University of Peshawar used to provide admissions to prospective students manually and many applicants from remote areas could not apply on time. I developed a web-based application for students to apply for various colleges from the comfort of their homes, which in turn helped colleges get more applicants and merit lists would be generated with a push of a button.

Cash Management System

- Development/Deployment and Configuration of Web based Faculty Evaluation System for University of Peshawar using PHP/HTML/MySQL/JavaScript/Bootstrap technologies

Odoo ERP System

- Deployment/Configuration/Customization of Odoo Enterprise Resource Planning (ERP) for KPRMP including modules like HR, Payroll, Attendance System, Leave management, Inventory etc.

Digital Transformation

- As an IT Business Analyst in digital transformation initiative intends to automate document and file management system within 32 departments of Government of Khyber Pakhtunkhwa (GoKP). As part of Project Management Office (PMO) my responsibilities mainly include: to provide oversight and advisory role during implementation, quality assurance, risk management, preparation of monthly status reports, network & connectivity assessment of KP government departments, knowledge transfer of SRS and FRS to the DMS

implementation firm, advisory support in procurement and business process awareness.

Technical Evaluation for Digital Transformation

- Provided extensive assistance to the procurement committee in Technical & Financial Evaluation of the submitted RFBs for the Workflow and Document Management System, mainly includes preparation and finalization of eligibility criteria as per floated RFB, in-depth technical review of the eligible firms, assisted in procurement workshops/seminars/meetings, and technical assessment of the submitted projects of the shortlisted firms etc.

Skills

- | | |
