@devhassam

My name is Hassam, and I'm a full stack developer specializing on Laravel and TailwindCSS, with a little React.js sprinkled on the side. I am a quick learner and can change to fit new technologies and work conditions. Always seeking a challenging role in a competitive environment to utilize and enhance my skills for the growth of an organization as well as to improve my stack about emerging trends in the sector.

ADDRESS

Mushtaq Town Lahore Punjab,
Sheikhupura Punjab, Pakistan

ABOUT ME

Full Stack Developer having 4 years of experience. I'm working with Frontend Stacks, PHP, Laravel, Laminas, Propel ORM, JS, Tailwind, and MySQL for web applications.

STACKS

Technologies & Tools:

PHP, Laravel, Laminas, JS, CSS, Bootstrap, Tailwind, WordPress, MySQL, Project Management Tools (Jira, Trello), Version Control Tools (Git, Bitbucket), IDEs I love (JetBrains products, DBEaver for databases), Postman for API, Data Parsing (XML, JSON), Database and Wrappers (ORM), FTP, Putty, VPS management, and docker.

AWARDS

- A Grade award by Aptech (2017)
- Best Coding award by University (2021)
- 2nd position in programming contest (2021)

WORK

- Sep 2020**
current (2 yr 5 months) **kodestudio.net - Laravel Developer**
Working as a senior PHP developer. Perfectly carrying out development, code quality, and performance review of multiple platforms including web apps and CRM. Handling PHP/Laravel/REST API Development/MySQL.
- Jul 2020**
Sep 2020 (1 yr 3 month) **techlobz.com – PHP/Frontend Developer**
Aggressively started a career as a Junior Web Developer and effectively performed duties in work management, project management, performance review, code quality, and meetings on a daily, weekly & monthly basis. I trained developers and gave programming classes to fresher.
- Apr 2017**
Oct 2019 (3+ yr) **fiverr.com - PHP | WordPress Developer (@sevone)**
Working on custom PHP web apps, developing events, business, real state, learning, and eCommerce websites. I used almost lots of PHP packages, JS libraries, paid WP themes and plugins. I learned about domains, IP, hosting, VPS, Cloud, Object storage, CDN, DNS, optimization, backups, security, firewalls, 3rd party integrations and meeting project deadlines.

I have a learning attitude and love to cover new stacks. Am always look busy in reading dev blogs. Statistics, Analytics, Performance, Growth, Strategies the things I focus, exploring Github repos, and fully compatible with other non-stack devs. As I'm also experienced frontend dev and to cover full domain I'm currently covering VUE.
