Experiences

Mar 2022 - Present

MERN Stack Developer

Company Name | Shiny Proxima, Islamabad

I have the privilege of collaborating with the brilliant minds at Shiny Proxima as a MERN Stack developer and team leader. My role is to lead and inspire the team by providing guidance, distributing tasks efficiently, and managing the software development process. I take pride in supporting and empowering my team members to reach their full potential and deliver outstanding results.

Aug 2020 - Mar 2022

Web Backend Developer

Company Name | Sigma Digital solution, Islamabad

As a backend developer at Sigma Digital Solution, a multinational company, I had the privilege of working with a team of 60+ talented individuals. Together, we tackled multiple projects using cutting-edge technologies, and I played an integral role in ensuring seamless collaboration and successful project delivery. It was an exhilarating experience, and I'm grateful for the opportunity to have worked with such a diverse and dynamic team.

Aug 2019 - Aug 2020

Web Backend Developer

Company Name | Buraq Technologies, Peshawar

Buraq Technologies, a US-based company, I began my career as a junior web developer and had the pleasure of working alongside a team of seasoned professionals.

Next JS

TypeScript

Redux Toolkit

Material-UI

MySQL

MongoDB

Namecheap
Server

GitHub

I gained invaluable experience in web development, honed my skills through hands-on training, and contributed to the success of multiple projects. It was a great environment to learn and grow in, and I'm grateful for the mentorship and support provided by my colleagues.

Summary

As an experienced Software Engineer with four years of experience in web development, I have a strong command of both backend and front-end development. My expertise includes working with various technologies such as PHP CodeIgniter, PHP Laravel, Express.js, React.js, Next.js, Redux Toolkit, TypeScript, JavaScript, jQuery, SQL, and Mongo DB. Throughout my career, I have collaborated with various companies on diverse projects, allowing me to expand my skillset and stay up-to-date with the latest industry trends. Additionally, I am passionate about creating my own products during my spare time, further showcasing my dedication to the field of software engineering.

I am confident in my ability to tackle complex challenges and develop innovative solutions to improve user experiences. With my strong problem-solving skills and experience in various technologies, I am committed to providing high-quality work that meets the needs of both clients and end-users.

Thanks, and best wishes.
