Summary

To secure a challenging role as a Full Stack Developer where I can utilize my expertise in HTML, CSS, JavaScript, PHP, and Bootstrap to design and develop dynamic and interactive web applications. With over 3 years of experience in web development and a strong understanding of databases such as MySQL, I am eager to work with a dynamic team and take on complex projects. I am dedicated to delivering high-quality code and exceptional user experiences to help clients achieve their goals.

Experience

Developer at Independent   2020 – Continue

- Independent Project Developer: As an independent project developer, I have gained experience in designing and developing software projects on my own. Through self-directed learning and independent project work, I have developed practical skills in programming, software development,

Education

Intermediate   2021 – Continue

- As an intermediate-level computer science student, I have completed the foundational courses in computer science and have developed a solid understanding of programming concepts and problem-solving techniques.

Projects

Web Development and Programming Projects   2020 – Continue
Developer
Independent

- As a web developer, I have completed several projects that have allowed me to gain practical experience in designing and developing websites and creating software. One of my most notable projects is the development of the website computerpdf.com, which I created as a part of my Project

Achievements

Web designing

- As a graduate of the web designing course at Alamgir Institution, I have completed a comprehensive program that has equipped me with the skills and knowledge needed to design and develop effective websites. The course was a 3-month program that covered topics such as HTML, CSS, JavaScript, and other web technologies.
