OBJECTIVE

To work in a competitive environment that effectively utilizes my analytical, interpersonal and organizational skills to conceive and achieve solutions. The solutions which help the organization in not only meeting its targets, but also allowing it to grow, thereby, enhancing my own skills as an individual and as a key player in the organization's development.

AREA OF PROFESSION

More than seven years of experience in web application development. Create complex back-end management systems, the projects based on PHP in conjunction. PHP, MYSQL, Vue.JS, JavaScript, jQuery, AJAX, HTML and CSS are used. Design layouts and templates for various companies and individuals.

I have worked in the following Areas:

- Punjab Food Authority (Gov. Organization) Application System
- Strong Expertise in Java scripts, jQuery, Vue.JS & AJAX.
- Dynamic content application
- WordPress Theme's and Plugin's Development
- Point of Sales
- Restful API
- Various Payment Integration
